

Help Shape Sport England's Future Strategy

- Letting Sport England know your headline reactions and feedback [via their short survey](#)
- Taking part in one of their structured sessions to discuss where they're heading and what that means for what they'll do - they expect these will be from July onwards
- Contributing to an online conversation to generate discussion around key themes and questions - which will be set up from autumn onwards.
- Sharing the 'Shaping our Future' document with anybody who you think is interested and may want to be involved in future engagement.
