

## New club personnel report will help to 'lessen the burden' on volunteers

- To reinforce the WavePower 2020-23 messages and requirements by supporting clubs with SwimMark and Stronger Affiliation submissions
- To ensure the club officer contact details are up to date so the club doesn't miss any key information distributed by Swim England
- To allow further connections to the club personnel as a whole
- To provide members with possible additional opportunities, both delivery and training
- To provide clubs with live and accurate information on their club workforce (i.e. Swim England led qualifications, safeguarding training and club DBS)
- To allow Swim England and it's clubs to demonstrate leading best practice in terms of recording and quality assuring their workforce
