

Water Polo Survey for Swimmers

A Swim England survey targeted at 13-15 year old swimmers is available to complete. The survey looks to understand the views of young people from a swimming background about water polo being a potential alternative way for them to stay in aquatics in the event that they give up competitive swimming.

They are keen to gather feedback from as large and as diverse a range of young people as possible within this age group. Please do take the time to complete it and draw it to the attention of others.

The survey is available at: <https://www.surveymonkey.co.uk/r/WP13-15>
